DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sarni (US 6295925) in view of GB 1060689 and "Sit back and Relax" from International Dryer as set forth on pages 2-3 of the November 06, 2006 Office action.

Response to Arguments

Applicant's arguments filed January 18, 2007, have been fully considered but they are not persuasive. The argument that Sarni's device is distinct from what is claimed here is not persuasive as the Sarni device includes the heating sections and tension isolation means as required by the present claims.

As to the teachings of the British patent, it is not seen that the present claims are distinguished from the air impingement component presently claimed.

The argument that incorporating the vacuum belt dryer of the "Sit back and Relax" article would destroy the teachings of Sarni is not persuasive as a person having ordinary skill in the art would have appreciated that provision of such a feature would enhance the function of the Sarni device.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on

combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
